Summary

UI/UX Designer focused on SaaS and AI-driven products, experienced in designing dashboards, marketplaces, and workflow systems across multiple domains. Skilled in translating ambiguous requirements into structured, high-fidelity product experiences with strong emphasis on usability, speed, and system clarity.

Skills

Design & Tools: Figma • Adobe XD • Miro • Notion • Spline • Adobe Photoshop • Survey Monkey • VS Code • Antigravity • Stitch • Canva

UX Process: User Flows • Wireframing • Design System • Prototyping • UX Research • Usability testing

Product Specialization: SaaS • B2B CPaaS Platform • App Design • Responsive Web Design

Experience

Jina Code Systems

Gurgaon, India

UI/UX Designer

09/2025 - Present

- Designed solutions across **6+ diverse platforms**, including an **Export-Import Trade System**, **CPaaS Communication Platform**, **AI-powered Educational Chatbot**, **Consumer Delivery Marketplace** and **B2B Legal & Compliance Tools** handling varied workflows and user interactions.
- Improved multiple **website UI** using AI-assisted, prompt-driven workflows directly in **VS Code & Antigravity** – reducing design-to-implementation time significantly.
- Reduced **frontend implementation ambiguity** by designing developer-friendly UI systems and interaction flows, enabling smoother and faster feature implementation.
- Improved **feature clarity and usability** by conducting competitive analysis and structuring user flows for complex systems including admin panels, chatbot interfaces, and workflow-driven platforms.
- Independently drove design decisions from requirement interpretation to final UI delivery across multiple product modules.
- Manage company LinkedIn presence – developing content strategy, planning posts, and driving organic reach to support brand visibility and audience growth.

Independent Projects

Mumbai, India

Product Designer (Independent)

01/2025 - 09/2025

- Designed an **enterprise analytics SaaS dashboard**, improving **data clarity and usability by ~35%** by simplifying dashboard hierarchy, structuring KPI visibility, and enabling real-time insights.
- Built an integrated **healthcare and fitness app**, improving task completion efficiency through streamlined user flows across health plans, lab tests, pharmacy, and consultancy.
- Created a **habit tracker application** with a **virtual pet system**, delivering a 28+ screen UI with structured habit flows, multi-level task management, and engagement features.
- Designed a **virtual venue booking platform**, reducing **decision-making time by ~50%** by enabling immersive virtual tours, side-by-side comparisons, and customization-driven exploration.

Dextra Square Private Limited

Bangalore, India

Design Executive / Lead Manager

12/2023 - 12/2024

- Created precise 2D and 3D model using AutoCAD and Blender 3D, consistently meeting client requirements and company standards.
- Increased user engagement by 50%** through UI enhancements to the company website, improving overall visual consistency.
- Improved stakeholders' understanding of lead data by 45% by optimizing the CRM system, managing lead inflows/outflows, and reducing tracking errors.

Dextra Square Private Limited

Bangalore, India

2D/3D CAD Intern

05/2023 - 07/2023

- Modeled custom fences for gates, windows, and boundaries, ensuring accuracy and alignment with client requirements.
- Collaborated with customers to create tailored 3D panel, enhancing satisfaction and product clarity.
- Reduced customer decision-making time by 30% through detailed visualizations, which accelerated project approvals.

Western Railway

Mumbai, India

Trainee CAD Engineer

08/2022 - 10/2022

- Modeled and developed conceptual solutions for mechanical formulated challenges, improving component efficiency and reliability.
- Gained hands-on experience in assembling mechanical parts and components, contributing to smoother prototyping and testing cycles.
- Created 3D animations in Fusion 360 that enhanced visualization and reduced review time by 25%.
- Learnt 30-day workshop, dismantling and assembling body parts of coaches, inspecting, constructing and painting different bogie parts.

Education

Dayananda Sagar College of Engineering

Bengaluru, Karnataka

B. E in Mechanical Engineering

08/2019 - 08/2023

Key Achievements

🏆 Google UX Design Professional Certificate.

★ AUTODESK CERTIFIED USER

🏆 First prize in a National level Technical symposium, AARAMBH-2022, in CAD war.

🏆 FIFTH place in competition for Creative model of bicycle with luggage rack

🏆 Ranked in top 10 for conceptualizing a unique 3D of drone with eagle claw.

🏆 Training on Go Kart Design and Dynamics
